*In re: Closed Captioning and Video Description of Video Programming-  
Implementation of Section 305 of the Telecommunications Act of 1996-  
Video Programming Accessibility*

## **CGB-CC-0772- Supplement to the Petition for Exemption from Closed Captioning Requirements Filed by Life Christian Church**

Dear Ms. Dortch:

COMES NOW, your petitioner, the religious television program "Come Home to Life", by and through its attorney, Wesley R. Carter, and files the below described statements and evidence in support of its Petition for Exemption as follows:

1. Petitioner is a donor supported television program that is financially independent of Life Christian Church. Members of Life Christian Church's congregation who wish to make donations to the television program must specifically do so separate of their tithe to the general fund of Life Christian Church. These circumstances warrant the use of the discretion, which has been given to the Commission<sup>1</sup>, to not evaluate the resources of the overall church but rather the funds available to "Come Home to Life".

---

<sup>1</sup>*Implementation of Section 305 of the Telecommunications Act of 1996 - Video Programming Accessibility*, Report and Order, 13 FCC Rcd. 3272, 3366 (1997) ("Where **appropriate**, we will, therefore, consider the resources of the individual outlet . . .") (emphasis added).

2. "Petitioner" receives absolutely no compensation for its programming.

3. Compliance with closed captioning requirements will cause petitioner to either terminate or substantially curtail its programming. Petitioner has already been forced to reduce its programming from two days per week to one day per week. Thus far in 2008, the shows airing only once a week are re-runs of old programs due to financial stress on the ministry.

4. That in order to do closed captioning, petitioner would either have to pay a third party to caption the programming or purchase an encoder and pay someone to perform the service in-house. Attached as Exhibit A are a range of quotes from organizations that provide captioning services along with Exhibit B which are quotes for the captioning equipment.

The average cost of an encoder would be \$8,000.00, and a weekly cost of approximately \$180.00 per week pay someone to perform the service. This would add up to a cost of \$17,360.00 for the first year and further contribute to the deficit at which the program is operating under.

The average cost of a third party captioning the programs is around \$300.00 per show. This amount would represent \$2,400.00 per month when CHTL returns to its standard twice per week format. The closed captioning cost would absorb 30% of CHTL's total monthly budget.

5. Petitioner has attempted to find alternate means of providing the closed captioning for its programming. Attached as Exhibit C are letters from both the station that broadcasts the program as well as the production company that produces the program. These letters denied petitioner's request for the companies to provide closed captioning at no cost. Additionally, petitioner has conducted a thorough search for available grants with no success.

6. Petitioner has provided copies of invoices from WADL (the station that airs the program), attached as Exhibit D, and copies of invoices from Kingdom Productions, (the program's production company), attached as Exhibit E, as evidence of the programs costs.

7. The facts in this supplement are supported by affidavit, attached as Exhibit F.

8. Petitioner is providing this agency with the account ledgers, attached as Exhibit G, for the entire year of 2007 and through the end of March of 2008 as proof that monthly expenses are consistently more than the funds available to CHTL.

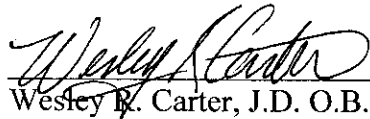

**CONCLUSION.** It is clear that the petitioner's expenses exceed its income on a regular basis and the program is constantly in jeopardy. The loss of one donor or a slight drop in tithing donations would spell doom for the television program. As evidenced by the statements and evidence provided in the initial petition and this supplement, the requirement of Closed Captioning would truly impose an undue burden on Petitioner.

FCC, Office of Secretary

April 18, 2008

Wherefore, Your petitioner prays that this agency grant the exemption from Closed Captioning as requested.

Hi James,

Great speaking with you today. As a Christian company, our focus and specialty is Christian programming. The following is a description and pricing for the closed captioning of your weekly 30 minute program.

#### **Live-to-Tape Captioning**

Roll-up closed captions created in a live format with captions lagging spoken word slightly. The accuracy is 98% or better for dialogue under 200 wpm when program info. is provided. This type of captioning is similar to live sports and news events. Even at Aberdeen's lowest level, you will be impressed because our live writers are Biblical terminology specialists. They create an excellent product that more than meets the FCC requirements.

**30 -min. program**

**\$ 175 per program** (includes NLEdirect file or BetaSP stock)

#### **Standard Roll-up Captioning**

Roll-up closed captions created and synched to spoken word using transcript (Aberdeen creates). The captions will be edited and moved around any on-screen graphics. Captions will be synched to spoken word with 99.5% accuracy or better. At Aberdeen, we call this "Standard" and in comparison, you'll find this quality better than most other captioning companies' premium or only level.

**30 -min. program**

**\$ 250 per program** (includes NLEdirect file or BetaSP stock)

#### **Platinum Roll-up Captioning**

Roll-up closed captions created and synched to spoken word using transcript (Aberdeen creates). The captions will be edited according to the hearing impaired guidelines (CMP) and moved around any on-screen graphics. All unusual words are researched to ensure accurate spelling. Captions will be synched to spoken word with 100% accuracy. The program goes through three complete quality control checks to ensure the highest level of accuracy possible. If you want the best roll-up captioning in the industry, this is it!

**30 -min. program**

**\$ 315 per program** (includes NLEdirect file or BetaSP stock)

We will label and ship your tapes to designated stations to meet airdates. We can use your FedEx number or use ours. We receive a significant discount and pass the savings on to you.

As we discussed, you have the option to do the NLEdirect captioning directly onto your editing system. Please see the following link for more details:

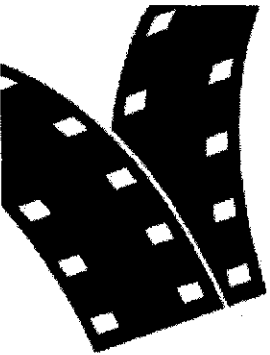

[http://www.abercap.com/ppc\\_nledirect.php](http://www.abercap.com/ppc_nledirect.php)

We can turn programs the same day in emergencies. We typically would work on a 5 day turn unless discussed otherwise.

Please let me know if you have any questions.

RE: Closed Captioning Proposal

Dear James:

Video Caption Corporation appreciates the opportunity to submit this proposal to close caption programming for Life Christian Church.

We propose to provide our high-quality Basic Roll-up Style captioning for your weekly, 30-minute program, which you would send to us (via FTP) as a low-res reference file (avi or other comparable digital file format). Our deliverable to you would be video caption data files (via email) that you would integrate with your video using your NLE.

## **Pricing (per 30-minute Show)**

<b><i>Basic Roll-up Style Closed Captioning</i></b> .....	<b>\$235.00</b>
<b><i>Transcription</i></b> .....	<b><i>Included</i></b>
<b><i>File output</i></b> .....	<b><i>Included</i></b>

Our standard guaranteed turnaround for this project is 3 business days. Faster turnarounds, including same day, are available at additional charge.

James, we will always do our very best to make this process as easy and affordable as we can. If you have any questions or concerns, please do not hesitate to contact me at any time.

We look forward to the opportunity of working with you!

Sincerely,

Constance Carlson

Dear Mr. Boyd:

This is a response to your request that WADL state its policy regarding provisioning of Closed Caption services.

WADL does not vend captioning services. Program providers must caption content prior to delivery to WADL for airplay.
